- Explored **test automation processes** and best practices for selecting test tools.

• Hyper Island August 2022-April 2024

Diploma in Frontend development

- Gained comprehensive skills in **HTML**, **CSS**, **JavaScript**, **React**, and backend technologies like **NodeJS** and **Express**.
- Acquired hands-on experience in user-centered design and **agile methodologies** and **Figma**.
- Worked on real-world projects, collaborating with industry professionals to deliver high-quality solutions

Experience

Full-Stack Developer

LifeBonder | [Denmark/Remote]

11/2024 – Present

- Developed and optimized an **ATS-integrated career page** to streamline the recruitment process and enhance user experience.
- Designed and implemented dynamic features using **JavaScript, React** and **Typescript**
- Collaborated with the design team to create a visually appealing interface aligning with the company's branding guidelines.
- Improved backend logic for handling applicant data securely and efficiently.
- Conducted usability testing and refined features based on feedback to improve engagement.
- **Created and integrated API endpoints** on the backend to improve data flow and system efficiency

• Parental Leave

• August 2024 – November 2024

- Took time off to focus on family responsibilities, during which I maintained and developed key organizational, **time-management**, and **problem-solving skills**.

• Web Developer

Nanogiga, Remote. January 2024 – August 2024

- Collaborated with a French tech company specializing in electronic cards and assemblies to enhance their website and system.
- Translated stakeholder requirements into functional, visually appealing solutions.
- Improved website responsiveness, performance, and **SEO** using **React** and modern web development best practices.
- Managed project timelines, ensuring timely updates and issue resolution, while providing continuous support for system improvements

- **Full-Stack Developer Intern**

Yaylooh, Stockholm. June 2023 – January 2024

- Developed dynamic and performant user interfaces using **React**, **TypeScript**, and **Python**.
- Integrated **REST APIs** for seamless data flow, collaborating closely with backend and UX teams.
- Designed and implemented responsive web components, enhancing the user experience.
- Debugged and tested web features, executed **SQL queries**, and conducted end-to-end testing on backend endpoints using **Cypress**.
